

## Belmont College – Ohio University Plan

---

### Bachelor of Science in Engineering Technology and Management Program Pathway

The Bachelor of Engineering Technology and Management (B.S.E.T.M.) combines technical courses, with a business minor, quantitative sciences, natural sciences, and general education to prepare graduates for technical, management, and/or applied engineering positions in business and industry. Common starting job titles include: manufacturing engineer, quality engineer, process engineer, applications engineer, sales engineer, production manager, project manager, and operations manager. The Engineering Technology and Management program is accredited by the Association of Technology Management and Applied Engineering (for more information see [www.atmae.org](http://www.atmae.org)).

Over 90% of the Engineering Technology and Management courses include lab activities in which students apply the theory they learned in the classroom to “real life” problems and projects. These activities are not simply simulation; they have real outcomes as well as consequences. This activity based, “hands on”, approach to learning provides students technical knowledge as well as continuously improving their problem-solving skills. The Engineering Technology and Management graduate is a technical generalist who is competent in assessing problems and proposing solutions to improve productivity related to product specifications, materials and processes, industrial control and information systems, and operations management.

### Admission Requirements

- Students who wish to transfer must have earned a C or better in a math course and a science course.
- Transfer students who have earned fewer than 20 semester hours of credit at another accredited collegiate institution may be admitted directly, if they meet the general requirements for admission to Ohio University.
- Transfer students who have earned more than 20 semester hours of credit at another accredited collegiate institution may be admitted directly, if they meet the general requirements for transfer students, including a GPA greater than 2.5.
- Students must have a GPA of 2.0 or higher for all courses taken, for all courses taken in the Russ College, and for all courses taken in the intended major.
- Students must also have successfully completed all required courses in three attempts and have no required course they have attempted twice without success. For some courses, success means a grade of at least a C or C-.
- Official transcripts sent directly to Ohio University from all colleges and universities you have attended.

## Bachelor of Engineering Technology and Management (B.S.E.T.M.) Degree Requirements

To qualify for the Bachelor of Science in Engineering Technology and Management degree, a student must have completed all Ohio University graduation requirements: general education, College, major, minor, and residency. Students must earn a minimum of 30 semester hours of Ohio University credit, complete a minimum of 50% of the major course requirements at Ohio University, and complete a minimum of 120 total semester hours for graduation. Russ College of Engineering and Technology requires students to earn a minimum of 24 semester hours applicable toward their degree after entering one of the degree programs. In addition, students must have a GPA of 2.0 (C average) or higher for all courses taken, for all courses taken in Russ College, and for all courses taken in the intended major, by the end of the third enrollment in that course. "Enrollment" includes classes in which FS, or WF grades are earned.

## OHIO BRICKS General Education Requirements

BRICKS is Ohio University's general education program, and requirements must be fulfilled by all baccalaureate degree students. BRICKS includes a minimum of 38 credit hours across five categories: Foundations, Pillars, Arches, Bridges, and Capstone. Courses used to satisfy BRICKS requirements may be completed through Belmont College or Ohio University. The [General Education equivalency guide](#) lists Belmont College courses that have direct course equivalencies at Ohio University which meet OHIO's BRICKS general education requirements.

### BRICKS and the Ohio Transfer 36

Students who complete the minimum requirements of the Ohio Transfer 36 (OT36, formerly the Ohio Transfer Module) at another college or university prior to enrollment in a degree-seeking program at Ohio University will receive transfer credit equivalent to fulfilling Ohio University's BRICKS general education requirements in Foundations (excluding the Advanced Writing component, which requires completion of TME 002 Second Writing), Pillars, and Arches. If you have not completed the OT36, your courses will be evaluated on a course-by-course basis and will apply toward general education requirements as appropriate.
